

All Variants

(MAF < 0.1% across all populations)

ClinVar database

last evaluated date must be within 10 years (01/01/2010 – current)

1

Two stars or more

2

One Star

3

No Star

Single submitter

Conflicting
interpretation

4

Consensus Rule (at
least one star)

5

If tied, take most
recent date of
evaluated date

InterVar – call with
modification for PVS1 and PP5
PVS1: autoPVS1
PP5: disregard OMIM and
GeneReview classification
Variants with conflicting
pathogenicity do not get PP5
score

Final Classification

P, LP, VUS, LB, B
